# Janome Digitizer Jr

- Janome Digitizer Jr software gives you the freedom to express yourself in stitches, monograms and more
- Digitizer Jr will help you to change the format of a design to a format which can be used with Usha Janome machines
- With Digitizer Jr, designs from multiple embroidery formats can be viewed
- Existing designs can be resized
- Colours in the design can be customised
- With "Copy and Mirror to Corners" function, design can be copied to all four corners to create the layout in minutes
- 20 different built-in fonts and the ability to create monograms
- Digitizer Jr can be upgraded to Digitizer MBX with the help of upgrade kit
- Large layouts by combining designs can be planned up to a size of 3 metre X 3 metre
- Realistic view of designs with Visualizer
- Powerful, easy-to-use interface with large icons

# Memory Craft 3 Ipad Apps

The apps only works with MC15000 ( Wi-fi enabled sewing machine)

## AcuEdit

The AcuEdit app allows you to edit Janome embroidery designs on your iPad using Wi-Fi.

You can edit designs anywhere, anytime! Embroidery designs can even be edited when your machine is sewing. The app gives complete access to the embroidery suite.

Send the design data to your sewing machine and you are ready to go!

### Link with Sewing Machine

- \* You can send embroidery data from your iPad to your sewing machine. The machine can start sewing your new designs upon receiving the data.
- \* AcuEdit can also receive embroidery designs from the Ready to Sew and editing modes of your sewing machine.

### AcuEdit Feature List

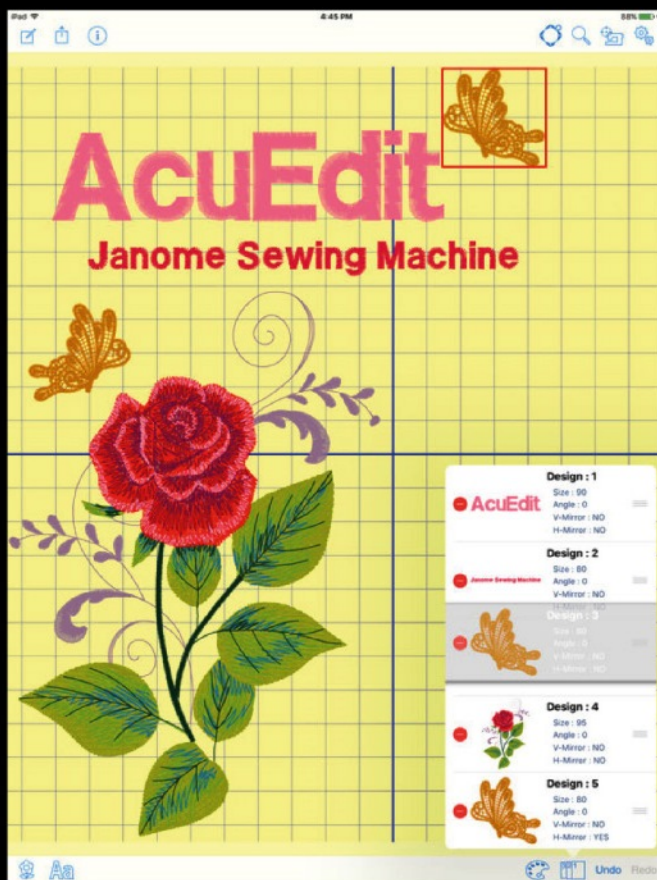

- \* Move
- \* Rotate
- \* Enlarge/Reduce
- \* Mirror image
- \* Vertical flip
- \* Centering
- \* Cornering
- \* Copy and paste
- \* Arching (monogramming)
- \* Space adjustment (monogramming)
- \* Delete
- \* Ability to change thread colors
- \* Ability to change sewing order
- \* Ability to Undo and Redo any change you make
- \* Edit embroidery designs by using the controller on the screen.
- \* Basic editing can also be made by moving two fingers across the screen.
- \* iPad photos can be displayed as the background of the editing screen.

## Import embroidery designs

- \* Select designs from your embroidery collection on your iPad.
- \* You can use all built-in designs from compatible sewing machines.  
(to use the built-in designs from Memory Craft 15000, first connect to your sewing machine)  
(to use the built-in designs from SKYLINE S9 / atelier 9, it's necessary to download the data)
- \* You can add monogramming designs by inputting them using the keypad.
- \* iTunes enables import of embroidery designs from the internet or your PC to your iPad.
- \* Embroidery designs can now be imported from email attachment files, online storage services and other apps.

## Save embroidery designs

- \* Save embroidery designs on your iPad.
- \* View and delete thumbnails of embroidery designs.

# AcuSetter

## Camera-Driven Embroidery Placement

The all new AcuSetter App brings image technology to design placement for the ultimate in precise, trouble-free embroidery positioning. It is the next great innovation in Janome embroidery. Use your iPad and the Horizon Memory Craft 15000's wi-fi capabilities for perfect placement of embroidery.

### Link with Sewing Machine

- \* After receiving embroidery designs from the sewing machine's Ready to Sew mode, you can arrange the position of the designs.
- \* By sending the arranged embroidery designs to the sewing machine, you can embroider wherever you want.

# AcuMonitor

The AcuMonitor app allows you to check the current status of embroidery work on your iPad using Wi-Fi. You can check embroidery progress even if you are away from the machine. With AcuMonitor, you don't need to sit by the machine anymore. While the machine is embroidering, you can go and do other things.

### Link with Sewing Machine

- \* Check embroidery progress on your iPad.
- \* Check machine status.
- \* View a list of all thread colors for the design which is being embroidered.
- \* The amount of time remaining until the next thread change can be checked.

### Status check

The status of the following items is displayed with messages and icons:

- |                   |                   |                |
|-------------------|-------------------|----------------|
| * Embroidering    | * Cutting         | * Ready to sew |
| * Changing thread | * Changing needle | * Stopped      |
| * Complete        | * Thread breakage | * Locked       |
| * No connection   |                   |                |

### Other features

- \* A function which displays the needle drop point making it easier to check the current sewing position.
- \* A magnifying function that enables even large designs to be checked in minute detail.
- \* In the demonstration mode, the app's planned operations can be checked even when not connected to your sewing machine.
